DEAFNESS CANNOT BE CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THANKS FOR DEWEY.

President McKinley sent a message to Congress Monday in which he recommended the adoption of suitable resolutions of thanks to Commodore Dewey for his gallantry and to his officers and men for their bravery and skill in destroying the enemy's fleet and the capture of the enemy's fortifications in the bay of Manila. The President also notified Congress that he had appointed Commodore Dewey an acting rear-admiral.

Congress promptly passed the resolution of thanks, and the number of rear-admirals was increased from six to seven, the purpose of the measure being to enable the President to nominate Commodore Dewey as rear-admiral. A resolution was also adopted authorizing the Secretary of the Navy to present a

DEWEY'S OFFICIAL REPORT.

All the Spanish Vessels Destroyed, and About 150 of the Enemy Killed.

Not an American Killed Nor a Vessel Lost—Only a Few Wounded.

The official report from the hero of the battle at Manila, cabled from Hong Kong, China, to the United States government, gives a brief but complete account of the naval engagement between the United States and Spanish fleets, which occurred, according to their time, Sunday morning, May 1. One remarkable thing about the battle is, that although the enemy's fleet was entirely destroyed or captured and a large number of lives lost, not an American vessel was lost nor a sailor killed, only a few being wounded.

Following are the official cablegrams between Commodore Dewey and Secretary of the Navy Long:

DEWEY'S FIRST MESSAGE.

MANILA, May 1.—Squadron arrived at Manila at daybreak this morning. Immediately engaged the enemy and destroyed the following Spanish vessels: Reina Christina, Castilla, Don Antonio de Ulloa, Isla de Luzon, Isla de Cuba, General Lezo, Marquez de Duero, Coreo, Velasco, Isla de Mindanao, a transport and water battery at Cavite.

SPAIN'S LINE OF BATTLE.

HONG KONG, May 7.—The order of battle assumed by the Spanish was with all the small craft inside Cavite harbor behind stone and timber breakwaters, and the larger ships cruising off Cavite and Manila. No patrol was established, nor was any searchlight placed at the entrance to the bay.

On Saturday night the American ships crept inside the bay without being seen, until the McCulloch's funnel emitted a spark. Then a few shots were exchanged with Corregidor Island, but the fleet never stopped or slowed down opposite the city until dawn.

The Spanish ships then opened fire, supported by the Cavite forts. The McCulloch remained at some distance, and the enemy's shells passed, but did not touch her. The cruiser Baltimore suffered the most of any of the American ships. Five or ten shots took effect on her, but none of her officers or crew were seriously hurt. Only a few slight injuries were suffered by the American fleet, the worst of which resulted from an explosion of ammunition on the deck of the Baltimore. The other ships of the fleet were practically unhurt.

One hundred and fifty Spaniards were killed, and many wounded. The cruiser Reina Christina was the worst damaged of the Spanish ships, and it is believed that she was sunk. The other ships of the Spaniards were quickly riddled by the Americans' fire. Two torpedo-boats from Cavite were quickly driven to that place for shelter.

The Cavite arsenal exploded, and forty Spaniards were killed. The forts made a nominal resistance.

AGNOR.—Mr. J. Brown Agnor, aged twenty-two, died Tuesday night, May 3, from an anaplectic stroke at the home of his father, Mr. W. C. Agnor, of Buena Vista. The funeral services were conducted at his father's home Thursday morning by Rev. W. H. Joyce, assisted by Rev. J. W. Pursley, after which his remains were brought to Lexington for interment.

Keep in Mind

That house cleaning time is now at hand; that I carry the largest assortment of Chinese Matting of any store in this section; that my present stock was bought at last year's prices, and no advance on account of the present higher tariff; that it is the best and nicest floor covering you can buy for summer; that it is wise to buy early and leisurely when you have time and we have time; that it is folly to defer and let your neighbor pick out the best of everything and then have to lament your loss; that the time to get the prettiest patterns and the best bargains is when the stock is unbroken and bargains are to be had.

Remember

That we positively cannot, when the present stock in this country is sold, put it in our House at anything like present prices; that you must make up to the necessity of making a little money go a long way; that it is easier to save money than to earn it, and that we make it possible for you to save it.

How?

By taking the quantity to get the price right, and by contracting for it prior to the addition of the present tariff. I bought last Fall 185 Rolls of over 7000 yards, and now have it stored in my unoccupied Store Room, with Sample Rolls at my present place of business.

Facts About Rugs.

We are only waking up to rug truths. Orientals have had their rug eyes open since the world was young. No matter how you furnish your rooms in other respects, there is yet a finishing touch, a satisfying completeness that is lacking without a rug or two. A rug to cover your floor, a medium size for your doorway or to throw anywhere, or a modest rug to cover a worn spot, maybe had cheaply now.

OPERA OF PINAFORE BY AMATEURS.

The comic opera, H. M. S. Pinafore, was produced at the Lexington Oper House May 5 and 6 by the most attractive crew, composed of Lexington amateurs. The opera afforded an ever varying scene of interest, filled with sentiment and amusing situations, and abounding in jolly and pleasure-giving songs. Student Robert Nelson, of W. and L. U., filled the role of Sir Joseph, and a large number of Lexington's pretty girls made up his numerous female kindred. Mrs. Samuel B. Walker took the part of Josephine, the captain's pretty daughter; Miss Janet Allan appeared as Little Buttercup; Miss Lula Semmes as Hobbs. The amusing character, Dick Dadey, was assumed by Mr. E. D. Burrett, of Staunton, who had filled that part on several occasions already in a most successful manner. Mr. F. H. Anschutz appeared as Ralph Rackstraw and Mr. S. W. Frierson as the captain. The house was crowded and everyone seemed to enjoy the opera to the fullest extent. There were many good voices in the company and each part was well done. The proceeds will go the fund for the Tucker Memorial Hall. It was gotten up by Mrs. Gertrude Logan and Miss Annie White.

MARVELLOUS RESULTS.

Melton, Va., April 25.—Mrs. S. A. McClure of this place has derived marvellous benefit from the use of the famous medicine, Hood's Sarsaparilla. After having a severe cold she was seriously ill, and did not obtain much relief from medicines until she began taking Hood's Sarsaparilla. She improved at once, and gained flesh while taking this medicine, and after the use of three bottles she was entirely well and has remained so ever since.

Thomas S. White & Son.

All this hullabaloo, jingoism and rowdism in Congress by violent men with violent passions entirely void of self control should force the American people to call a halt, and ask in Heaven's name if we are to be controlled, ruled and ruled by men who do not control themselves. The people should rise in their might and refuse to allow the blood of our young men to be dabbled in by political tricksters for political ends. Who will pay for this war? Not the property owner by long odds. The poor man will be paying 20 cents for 10 cent coffee in less than sixty days if it is declared, and the ratio of advance in everything made of leather, wool, iron, &c., will be great. The poor man's 25c. tobacco will be 50 cents.

So we advise all our friends to come in and buy as much as they are able and store it away. Seward, who had as much brains as meanness, said they could stop the "rebellion" in 60 days. There is about as much wisdom in our saying we will clean up Spain in 60 days. So come in and buy your supplies while we have them cheap. It may be that we will not try to do business in time of war. We have about 1,300 yards of Ginghams at 4c., nice, fine cloth, equal to any 8c. gingham. This is a job lot that cannot be replaced, so call at once as it will all be gone in a few days.

Real good Cottonades, for working pants, at 10, 12 1/2, 15 and 20c. a yard.

A good stock of Overalls, double fronts, at 50c. Better grades at higher prices.

A very fine line of Gent's Fancy Colored 75c. Shirts at 50c.

It will pay you to look at our \$5.00 stock of Shoes.

And perhaps you had better buy a ten pound box of our 25c. Tobacco in order to get rid of the enormous war tax to be put upon it.

And buy all the cheap Coffee you can before war is declared. We have a good stock and will let it go at old prices, as it lasts.

Very Respectfully,

Thos. S. White & Son.

DEAFNESS CANNOT BE CURED

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
